

C180 ROCKET FOR KIDS >>

Kids with knee injuries have had limited support options until now. The C180 Rocket addresses the special needs of children with ligament instabilities. Its condensed size and anatomically proportioned hinge mechanism help provide support so kids can be kids, in sports and in life. And because kids come in all shapes and sizes, our unique Factory Fit™ option allows the Rocket to be adjusted in our factory for accurate fit and growth adjustments [additional charges apply].

Indications >>

- ACL, PCL and combined instabilities
- Non, low and high contact/impact activities

Features & Benefits >>

- Total Support System™ for ACL, MCL, LCL, PCL, rotary and combined instabilities
- Anatomically proportioned Accutrac™ hinges with extension stops [0-10°, 10-20°, 20-30°, 30-40°]
- Ultra-light, streamlined, thermosensitive, composite frame
- Factory Fit™ customized option allows for accurate fit and growth adjustments [additional charges apply]
- Non-corrosive materials, ideal for water sports
- Pivoting buckles enable proper strap placement above gastroc muscle
